# MAKER JOURNAL

Name:_____                     Date:_____

Project/Unit: [Electrical Engineering]                     Lesson: [Design Challenge: Ideate]

*Brainstorm with your team, and list parts needed in your design, and why it is important to include.*

| List components needed in the device: | Why is this component important? |
|---|---|
|  |  |
|  |  |
|  |  |
|  |  |

*Sketch out your design below. Where will each component go? Is there a path for electrons to flow?*

| Sketch below: |
