Unit: Digital Citizenship   Lesson 6: Cyberethics

Use the space below to create a plan for a video skit on cyberethics.

Video Skit Plan
Consider the following when developing your skit: • **Defined Roles – Decide who will be playing each role. Example: For ethical issues with cyberbullies, who will play the bully** • **Develop a timeline (sequence) or storyboard – When will the actors come in, say their lines, etc.?** • **Create dialogue – What will each person say in the skit? What will be the focus in cyberethics?** • **Make sure the skit draws a comparison between online ethical behavior and offline ethical behavior** • **Who is responsible for the techie stuff (videography, uploading and editing video, etc.)?**
