

## Glove-A-Phone

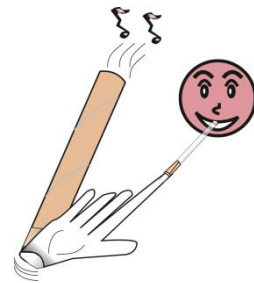

Initials/number:: \_\_\_\_\_

Teacher: \_\_\_\_\_

Date: \_\_\_\_\_

1. Look at the picture. If the glove is pulled tighter over the tube end the pitch will be \_\_\_\_\_ when the instrument is blown.

- A. Higher
- B. Lower
- C. Stay the same

2. To change the sound heard through this instrument is to change the \_\_\_\_\_ of the tube.

- A. Width (diameter)
- B. Length
- C. Both of these

3. Circle the part of the instrument in the picture below where vibrations occur.
